

Lifting Equipment

Skjonberg Controls does more than just control motors; lifting equipment can be designed to meet your needs. Since the late 1980's, we have been supplying wire rope drum winches, yoyo winches, tractors and rotation equipment for touring, themed entertainment and film use. The lifting equipment can use our single speed or variable speed controls for manual or programmable operation. The controls can be supplied with UL and C/UL 508A Listing.
